OIL, GAS & MINING

April 5, 1988

Mr. Melvin R. Swanson, Manager
Kelmine Corporation
P.O. Box 1383
Moab, Utah 84523

RE: Kelmine Corporation
Lisbon Valley Mine

M/037/038

Dear Mr. Swanson:

This letter is to document that the construction permit issued 22 September 1986 for the construction of the Lisbon Valley Mine Project described therein is no longer valid. This is because the regulations require that the project be constructed or under substantial continuous construction within one (1) year of the issuance of the permit.

If the project is to be constructed a new construction permit must be applied for.

Please call 538-6146 if there are any questions.

Sincerely,

Charles G. Dietz, P. E.
